

Mapped results of a river modeled for a flood insurance study

Project Description

This **flood insurance study** is focused on the **Lower Connecticut Watershed**. Several rivers and lakes are being studied in detail as part of this study. This requires detailed **field surveys** of **structures** crossing the rivers and of the **river bed** in selected areas. The rivers are listed below.

- Beaver Brook Wethersfield, CT
- Coginchaug River Middletown, Middlefield, and Durham, CT
- Falls River Essex, Westbrook, and Deep River, CT
- Farm Brook South Windsor, CT
- Folly Brook Wethersfield, CT
- Freshwater Brook Enfield, CT
- Gages Brook Vernon and Tolland, CT
- Goff Brook Wethersfield, CT
- Hockanum River East Hartford, Manchester, and Vernon, CT
- Judd Brook Hebron and Colchester, CT
- Lydall Brook Manchester, CT
- Mattabesset River Middletown, Cromwell, Berlin, and Rocky Hill, CT
- Plum Gulley Brook South Windsor, CT
- Scantic River Somers, CT and Hampden, MA
- Sumner Brook Middletown, CT
- Tributary A to Goff Brook Wethersfield, CT
- Willow Brook Berlin and New Britain, CT
